TRIVON

Total Solution for Face Lifting & Body Contouring

NEW generation HIFU as the main technology combining Radio Frequency and Ultrasound realize complete youth face care and slim body care

One machine realizes 3 different functions harmonization for effective face and body care.

Constant collagen generating care with RF, and 3 Sessions of dramatic lifting care with HIFU keeps your face young and healthy. A total fat care program, those three different stimulations against fat, can be completed with Trivon, they are 'Burning fat with RF', 'breaking fat with Ultrasound Cavitation' and 'melting fat with HIFU'.

New generation HIFU

No pain safe hifu without cartridge consuption

PATENTED SYSTEM

NO CARTRIDGE SYSTEM

Self-Water cooling system (patent no. 10-1534434) guaranty
HIFU treatment without cartridge change.
Our own developed transducer is much strengthen against heat.

EASY AND SAFE

Rubbing type HIFU Hand Piece (patent no. 10-1286584)
It is for easy to treat all over face including curved area without limit of lesion.
Overlapping is allowable so it prevent burning problem what conventional stamping type HIFU having.
And also it doesn't heart nerve at all so it is safe from blocking problem.

PROMPT VISIBLE RESULT

It can realize prompt visible result with the dense coagulation points all over the lesion
without any missing area with the exact 65 °C no hurt of muscle.

FACE AND BODY CARE

It has two Hand Piece for face and body. Without additional charge for body, you can treat body as well.

TRIVON

Ultrasound & Radio Frequency Body care Applicator

ULTRASOUND

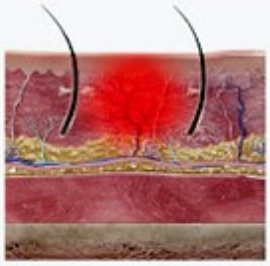
It makes a lot of bubble and bursting of bubbles releases huge amounts of energy, which breaks the cell wall of the fat cells. Complex fatty acids broken down to simpler fatty acids. 28KHZ Ultrasound frequency that works by vibration to gently agitate the fat cell facilitating the body's natural process to metabolize and move fat out through the lymphatic system. LED helps drain the dissolved lipocyte more rapidly from the body to outside by the lymph drainage and blood circulation.

MULTIPOLAR RADIO FREQUENCY

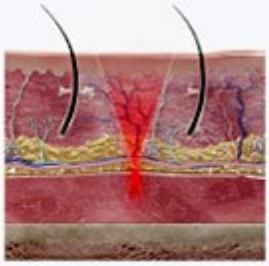
Diathermy heat in dermis area rebuild collagen and elastin fiber in the face conveniently enough without patient plate. With the constant periodic care, you can keep youth face.

DUO-LIFT TRIVON - FACE

Application : Lift and Tighten the face & Neck, Improve Wrinkle



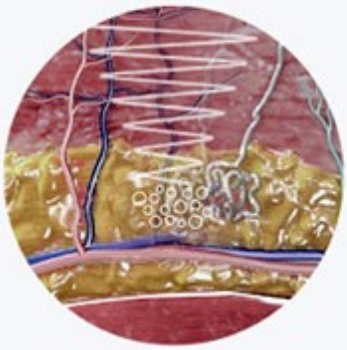
MULTIPOLAR RF
Collagen remodeling,
Elastin fiber regeneration



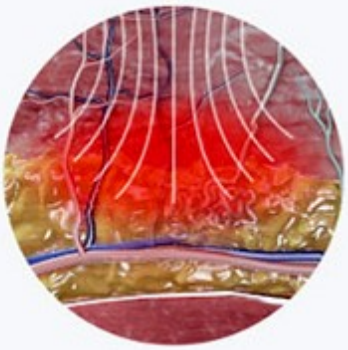
HIFU
Coagulate SMAS layer and regenerate collagen

TRI-SLIMING TRIVON : BODY

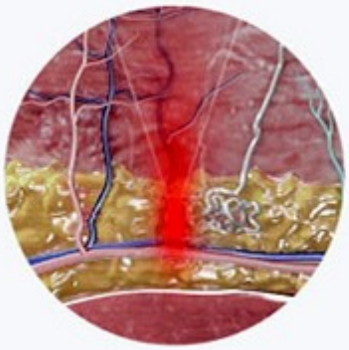
Application : Abdomen, Hip, Leg, Arm, Back, Foot, Thigh (Body contouring)



ULTRASOUND CAVITATION
Cellulite reduction, Destroy of lipocyte itself
Body reshaing effect partially.



RET RF
Dissolution and decomposition of destroyed lipocyte.



HIFU
Burn of dissolved and decomposed lipocyte

TRIVON

Specification

Model No : K1-1701
Rated voltage : 230V ~, 50/60 Hz
Power Consumption : 100VA
Dimensions : W500mm x D425mm x H1095mm
Weight : 38kg

GMP ISO 13485 CE
